# AUDACIOUS ANGELS SUMMIT

A truly global summit demystifying angel investing  
September 21-22, 2023 | Online

## Demystifying angel investing across ecosystems

The AUDACIOUS ANGELS SUMMIT 2023 connects aspiring and experienced angel investors from around the world to demystify angel investing and supercharge the next generation of diverse angel investors. Join us online for a truly global Summit spotlighting angel investing across ecosystems.

## Investing to change the world

This Summit convenes and connects aspiring and experienced angel investors across all regions for energizing panel discussions, deep-dive fireside chats, and interactive peer learning sessions. The action-packed program is powered by regional angel investing networks spearheading greater diversity in startup investing. The Summit offers a unique opportunity to connect with and get inspired by audacious angels across the Americas, Africa, Europe and Asia-Pacific investing towards the change they want to see in the world.

This Summit aims to demystify angel investing in order to break down the barriers to entry and inspire greater diversity in early stage investing. The practitioner-driven sessions will place a spotlight on key trends and innovation in angel investing around the world and ignite action for greater impact creation.

# Accelerating the next generation of diverse angel investors

The way we allocate capital and invest shapes the world we live in. Early stage investors play a key role in deciding who gets the chance to drive change, which problems get solved and which ideas remain unexplored.

Only 2% of venture capital goes to female founders and early stage funding for other underrepresented founders is similarly low. This is no surprise: Globally, less than 1.3% of the trillions of financial assets are managed by women and people of color. The case for greater diversity among investors couldn't be more evident.

Angel investors play a pivotal role in the early, most risky phase of a startup, providing much needed seed capital and expertise. Angel investors are the dynamos of local startup ecosystems and we want more of them – everywhere!

The Audacious Angels Summit brings together angel investors - both newcomers and pros - from all over the world for an action-driven peer learning and networking experience.

# Building on the success of the 2022 Summit

**150+**  
participants

**100+**  
connections  
made

**50+**  
countries

"The summit brought together an incredible line up of speakers that covered everything you needed to know about angel investing whether you were new to angel investing or a seasoned investor. I really enjoyed hearing the first hand experiences of both angels and investee companies and I'm excited for the next edition."

- **Aysha Tegally, Angel Investor & Founder, Future Females Invest, 2022 Audacious Angels Summit Speaker & Participant**

## **Audacious Angels Fellowship -**

### ***A year-round program accompanying our annual Summit***

Accelerating the next generation of diverse angel investors

**Peer learning** | **Networking** | **Co-investing**

We demystify angel investing in a year-round program with regular online live sessions:

- **Meet A Role Model** – learn from experienced angel investors
- **Solutions Salon** - hands-on advice for your challenges
- **Drive Impact** - insights on key impact and gender-smart investing trends
- **Collaborative Investment Avenues** - connect on innovative angel investing approaches and learn from real-deal case studies

“It's said that a small group of committed people has been the only thing that historically has changed the world. And what I've realized is that it takes community to get to where we want to go - whether that's backing the right startups, pushing for social change or disrupting the financial sector. That's why the Audacious Angels Fellowship has been so nurturing, so powerful and so beneficial in truly creating a community of shared learning across the globe of women angels.”

- **Tara Sabre Collier, Angel Investor, Elinor Ventures & 2022 Summit Speaker & Audacious Angels Fellow**

# What our participants say

I got to learn about how different angel investors across the world are becoming the first supporters of innovative startups that will shape our future. From Asia to the Middle East to Africa, **I gained knowledge of different models and ecosystems that I usually don't get to hear about as much in mainstream media.** If you want to build a global network and knowledge of angel investing, the Audacious Angels community is the place to start!"

- **Natalie Au, Obama Leader Asia-Pacific, Senior Associate, Gender Platform, AVPN**

The summit was a **truly global event** which allowed me to interact with key players from across the global VC/angel investor space. It provided great opportunities for learning, to share perspectives and to network. The variety and depth of the content and the quality of the speakers were notable. It was very useful to have the **sessions catering for people at different levels - be they founders or funders.**

Kudos to the organisers..

**Ivana I. Osagie, Angel Investor  
Founder & CEO, PWR Advisory**

The event makes for a conducive breeding ground for new ideas, sharing best practices and most of all creating a spring-board for new and diverse investors to engage.

**Hema Vallabh  
Founding Partner, Five35 Ventures**

Participating as a speaker in Audacious Angels Summit was an amazing opportunity to talk about meaningful things, not only technical business topics and how to achieve more, but about things that matter and move people forward, really connecting with the self. I will be honored to speak there again.

**Money Albarrán, Founder,  
Investor and Mentor**

Powerful to be part of an event where there was learnings and voices from around the globe. Furthermore the **representation of female investors/angels was truly impressive.** I spoke on a panel where there was a representative from almost every continent. Understanding the impact made by all angel eco systems will hopefully encourage more individuals to become early stage investors.

**Lucy Chow, Investor and Director,  
Women's Angel Investor Network in Dubai  
(WAIN)**
